LECTURE OUTLINE

Structure and Functions of Party Organs:

Clandestine Organization (Underground)

Like the iceberg which has seven-eighths of its bulk under water with only one-eighth visible, the strength of every CP is mainly underground and out of sight.

I. Introduction:

Communists shall everywhere create a PARALLEL ILLEGAL APPARATUS, which at the decisive moment should be of assistance to the Party in its duty toward revolution. (Resolved by 2nd Congress 1920)

The Communist Parties must be prepared for transition to illegal conditions. The E C C I must render the parties concerned assistance in their preparations for transition to illegal conditions. (Article 35-Constitution of the COMINTERN)

The following excerpts from official Communist sources will clarify the problem to be discussed in this lecture.

The Official Organ of the COMINTERN—"The Communist International", on September 1, 1931, published detailed instructions on measures to be taken in a country where opposition to Communism

risers to the stage of restrictive legislation.

The instructions called "Organizational Problems in Underground Revolutionary Work", by B. Vasiliev quote:

"the increasing artfulness of the police apparatus of the bourgeois governments in these struggles against the COMMUNIST MOVEMENT makes it essential for the latter to have more complicated, flexible and accurately functioning organization. This organization will inevitably have to rely on a STRONG CONSPIRATIVE APPARATUS, supplemented by widely adopted methods of LEGAL PARTY WORK."

1. The Party will have to rely on a strong conspirative apparatus which will be supplemented by such open activities as may still be legal in some countries;
2. Although police measures may increase pressure, the legal position MUST NOT BE ABANDONED wherever it still exists.
3. Alongside the still legally functioning Party, AN UNDERGROUND APPARATUS MUST BE CREATED, if it does not already exist, PARALLEL to the LEGAL ORGANIZATION. This will enable the CLANDESTINE GROUP TO TAKE OVER IMMEDIATELY AND WITHOUT INTERRUPTION when the LEGAL work becomes ILLEGAL.
4. But the underground should not be so perfectly hidden that it loses contact with the toiling masses and degenerates into academic conspiracy. Hence, contact must be maintained

by means of the legal Party newspaper, village correspondents,
by the COMMUNIST FRACTIONS in PARLIAMENTS, in MUNICIPAL
BODIES, MUSICAL CLUBS, MATHEMATICAL SOCIETIES, SPORT CLUBS,
FRESHWATER GROUPS, etc. A NEW NAME MUST BE READY for the
PARTY NEWSPAPER in case it is suppressed.

5. All members of the Party engaged in this conspiratorial
work must act AS IF THEY WERE NOT MEMBERS OF THE PARTY;
in SECRET MEETINGS of the nuclei the REAL NAMES OF MEMBERS
SHOULD NOT BE USED, only PSEUDONYMS.
6. In anticipation of bourgeois resistance to possible arrest
of known leaders of the CP, a SECOND STRING of SECRET OFFICIALS
MUST BE PREPARED for the underground work; safe buildings
must be chosen for storing the Party archives and to HOUSE
ILLEGAL PRINTING PRESSES; SECRET MEETING PLACES must be
chosen; CODES WORKED OUT; and a chain of EFFECTIVE STATIONS
for DELIVERY OF CORRESPONDENCE—(Letter Drops)*.

II. In accordance with above instructions every CP in the past took
appropriate measures to assure complete readiness in repression
or complete suppression and/or outlawing when it must carry out
functions under conditions adapted to underground activities.

A. Of course, every CP prefers LEGALITY because:

1. The AGITPROP may be overt (Daily press, etc.)
2. Front Organizations may be set up at will
3. Ability to demonstrate drawing power during elections
4. Much easier operations in Labor Unions

5. May enter the government the way of "democratic" process
 6. Ability to marshal public opinion
 7. Ability to obtain defense attorneys
 8. Solicit moral support of fraternal CP's including VKP(b)
 9. Delay transfer to illegality
 10. Fight against paralyzation by police actions, etc.
- B. All CP's are adapted to suppression and can survive because:
1. An organizational adaptability and mastery over a mass of practical technicalities (Short History of the VKP(b))
 - a. Developed CADRE SYSTEM —professional leaders, trained and paid by the Party
 - b. Cell system keeps active and in touch with the MASSES
 - c. Front organisations conceal control
 2. Background of conspiratorial techniques (knows what to do and how to go about it, Revolutionary Competence)
 - a. Defensive against police, intelligence agencies, hostile groups and public, etc.
 - b. Offensive: Political action, etc.
 3. Application of Communist theory as morale builder under suppression (too much police pressure forces masses to radical measures)
 4. Centralization—control by a small group
 5. Endurance

III. Prerequisites for clandestine activities:

-5-

- A. Mass support, without which no contemplated insurrectionary action may succeed
- B. Political climate prevailing in a particular country; i.e., political movements in the colonies, etc.
- C. Solar system of Front Organizations to attract accessible groups, including successful solution of the concealment problem of Party control of the organizations
- D. Settlement of CE and Intelligence organizations in relation to future Insurrectionary Action; this includes strategic economic intelligence
- E. Settlement of the Military Organization within the Security and other Forces (Secret Party Committees) Subversion
- F. Concentration on the procurement information which would clarify the elimination and capabilities of the HOSTILE POWER MECHANISM
- G. Plans for aggressive action against hostile individuals traitors and insecure party members, including physical elimination.

IV. Preparations for clandestine activities : (going underground)

- A. Training of relatively unknown party members to take "front" positions within the Party (second string)
- B. Establishment of new courier and communications systems, (instructions how to appoint liaison officers)
- C. Preparation of false identity cards for the use of more important members, etc.

-6-

- D. Procurement of printing and reproduction facilities
- E. "Going on vacation and not returning", etc.
- F. Security:
 - 1. Tightening of security measures from HQ to cell level
 - 2. Instructions on meetings (how to call or cancel meetings)
 - 3. Instructions how to conduct loyalty checks of CP members
 - 4. Instructions how to increase general vigilance against the Government securing information on the Party; other.

V. Capabilities of clandestine activities:

- A. Spionages: military, political, scientific, etc.;
- B. Courier system: Couriers for transmission of resultant information to channels through which it can reach its destination;
- C. Safe houses: for personnel engaged in clandestine activities
- D. Location of new CP (clandestine) centers in neighboring countries
- E. Strikes: slow-downs, work stoppages, etc.
- F. Sabotage of :
 - 1. Power sources
 - 2. Basic industries
 - 3. Sources of raw materials
 - 4. Military equipment (especially front lines equipment).
- G. Disruption of:
 - 1. Power transmission
 - 2. Transportation

I. Political Actions (and PW)

1. Agitation against the actions of the government
2. Creating fear and mass hysteria
3. Supporting pacifism, neutralism and other similar trends
4. Discrediting, confusing, and pressuring government leadership
5. Creating distrust of allies, etc.

K. Subversion

1. Encouraging absenteeism, etc.
2. Fomenting violence, race riots, etc.
3. Fomenting disorder and inciting disobedience within the armed forces.
4. Creating confusion and dissatisfaction among troops (such as giving orders for retreat)

VI. Organizational and operational problems:

Long break down reduces PARTY into isolated NUCLEI which can only maintain their CLANDESTINE EXISTENCE FOR THE DAY WHEN THE PARTY MAY BE REVIVED.

BACKLOG OF CONSPIRATORIAL EXPERIENCE—Shaped through the COMINTERN by the Soviets (Technical Apparatus) ONGBUREAU, YAVKA (Clandestine reporting place) , TROIKA (team of three) prior to 1943.

A. Fundamental problem for CP going UNDERGROUND

HOW TO COMBINE MAXIMUM SECURITY WITH MAXIMUM ACTIVITY; HOW TO EXPOSE ITS AGENCIES AND FUNCTIONARIES TO THE POLICE AS LITTLE AS POSSIBLE.

1. Reduction of PARTY Apparatus --determined by the size of the Party severity of repression; action taken within these lines:

a. CONSOLIDATION OF TERRITORIAL ORGANIZATIONS;

(region, district, subdistrict, section)

(28 Bezirke in Germ CP-1933 reduced to 8 inter-regional organizations OBERBEZIRKE)

CELLS BROKEN INTO SMALLER GROUPS

b. REDUCTION OF STAFFS

No more than 5 people, must be elastic

2. THE COMMAND FUNCTION(THE TRIAD SYSTEM-TROIKA) on all levels from NATIONAL to CELL level.

LIVE CHAIN OF COMMAND consisted of:

a. A specialist for POLMERK

b. A specialist for ORGTRONLWTS

c. A specialist for AGITPROP & LABOUR WORK

Sub cells--each CELL member directing three more non-members.

3. COMPARTMENTALIZATION is an organisation and security problem of the FIRST ORDER to prevent POLICE from learning too much when PARTY members or functionaries are arrested.

~~SECRET~~
SECURITY INFORMATION

- a. PARTY AND MILITARY BRANCH: this staff is kept distinct from PARTY'S POLITICAL MECHANISM
- b. PARTY & AUXILIARY (front) ORGANIZATION
(Youth Organizations, Women's, etc.) remain connected with the PARTY through INTERLOCKING PERSONNEL ONLY. They function on their own as independently as possible.
- c. PARTY & AUXILIARY ILLEGAL ORGANIZATIONS
(Teams, brigades--for CE, International Penetration, terror groups are LARGELY INDEPENDENT and SELF-CONTAINED GROUPS
- d. INTERNAL PARTY COMPARTMENTALIZATION (within the PARTY proper)
 - (1) ELIMINATION OF HORIZONTAL LIAISON (no contact with original structure on same level)
ONLY VERTICAL with designated functionary of the superior organization.
 - (2) RESTRICTION OF CONTACTS: Principle: The fewer comrades a functionary or activist knows the better
 - (3) FUNCTIONAL RESTRICTIONS: The COMRADES OF THREE (TROIKA) MUST NOT KNOW ANYTHING BUT WHAT REFERS TO THEIR WORK PROPER--French Instruction 1941
 - (4) ELECTION OF PARTY COMMITTEE
Where possible must take place in restricted Conferences and the elections themselves handled

in such a way that even the CONFERENCE members
WOULD NOT KNOW WHO WAS ELECTED

(a) Election of C. Committee

Election abroad is ONE WAY OF CIRCUMVENTING
SECURITY RESTRICTIONS AT HOME when the PARTY
is underground. (Greece, Spain)

(b) TERRITORIAL PARTY COMMITTEES ' ELECTION
COMMISSIONS:

(1a) Election commission chosen to be
the PARTY for the counting of secret
votes cast--announces results to the
CONFERENCE

(2a) A SMALL ELECTION COMMISSION elected
by the PARTY Conference elects the
NEXT PARTY COMMITTEE. The Party
Conference does not vote for candidates
but elects the COMMISSION

(c) CO-OPTATION

Elections of Party Committees replaced
by or combined with CO-OPTATION (Case of
YUG where cooptation was out of proportion
with elections of the CC).

5. PARTY ORGANIZATION ABROAD:

Working from outside into "ILLEGAL" territory (Lenin
in exile) Usually transferred to foreign soil are:

a. CC and all CC departments (Politburo, etc.)

- b. FOREIGN BUREAU (Bolshevik Party Abroad & the Mussolini Era)
 - c. REGIONAL SUPPORT CENTERS (CP Germany-Abschnittleitungen)
 - d. PARTY ORGANIZATIONS FOR EMIGRANTS (Emigrantenleitungen)
Carriers, border guides, etc.
 - e. SPECIAL SERVICE ORGANIZATIONS: Communications,
border crossing facilities, production of printed material
6. UNDERGROUND, WHILE LEGAL, it normally exposes most of its cadre to the public eye.

The Compromised CADRE must be REPLACED and new personnel has to be trained:

a. THE CADRE PROBLEM:

Preparatory measures must be taken (Invisible Cadre) for sensitive function composed of CP leaders comparatively unknown to the police.

MOST IMPORTANT TASK applied to the ENTIRE PARTY STRUCTURE AUXILIARIES, TRADE UNIONS, AND OTHER LEGAL REVOLUTIONARY ORGANIZATIONS. If the PARTY is outland these INVISIBLE CADRES HAVE BEEN STRATEGICALLY PLACED AND PROPERLY TRAINED hence, when the police seize the PARTY PREMISES, very little of the PARTY'S activities and few of its personnel will be revealed to them.

THE POLITICAL LEADER SHOULD NOT BE CONNECTED

WITH TECHNICAL FUNCTIONS of the PARTY (SECRETARY)

- b. An ADEQUATE CADRE RESERVE: to be able to reconstitute the PARTY
- c. Ideological Training of the new CADRE sometimes pushed into the background by more pressing operational problems
- d. THE PROTECTION OF ILLEGAL CADRE TOP PRIORITY

VII. HOUSING AND COMMUNICATION PROBLEM

- A. Shelter for illegal Party Functionaries, fugitives, safehouses, homes of unsuspected sympathizers, crypto-Communists, etc.
 - 1. Internal Communications— normal or TRIADS
 - Reporting points (YAVKA'S)
 - Letter drops
 - Contact points for couriers, etc.
 - 2. External Communications
 - BORDER CROSSING MECHANISM, smugglers, bribery of officials, etc. —security considerations
 - 3. REPORTING POINTS FOR LIAISON PERSONNEL from Abroad
- B. TECHNICAL APPARATUS:
 - Illegal Party papers, etc.
 - Party Press.

VIII. Security Problems

- A. Personal Security, fictitious names, etc.

work, it seems to understand that each failure in this respect represents danger for the PARTY and veritable CRIME AGAINST THE WORKING CLASS

- D. ADMINISTRATIVE SECURITY storage space, PARTY records Membership records (usually when going underground)
NO NOTEBOOKS—PARTY MEMBERS DO NOT SIGN papers with their own names ONLY INITIALS and NUMBERS ARE USED
BIOGRAPHICAL DOCUMENTATION (CAMER)

- IX. The Financial Problem(illegal more expensive collection of dues haggard, travel expenses, propaganda material, paper equipment, couriers—LOOK FOR SUPPORT FROM ABROAD(see MOPR)
X. MASS SUPPORT (fronts and auxiliaries) penetration and support
The fundamental deficiency of every illegal PARTY(per Comintern) is that the ILLEGAL PARTY apparatus makes contact with the MASSES difficult— and yet, the fundamental task of the CP is to have close contact with the MASSES. There ^{are} several methods by which the PARTY may attempt to surmount this obstacle:

- A. PENETRATION AND CONTROL OF LEGAL NON-COMMUNIST PARTIES representing workers and related class elements. This has only limited possibilities—repression of all "progressive" and "liberal" parties (Fascism) or resistance by SOCIALIST^S who lead these Parties (CP Austria versus SD Austria).
B. PENETRATION & CONTROL OF LEGAL TRADE UNIONS;
Tactic recommended by the COMINTERN the penetration process of TU is a permanent REQUIREMENT no matter what political status of the PARTY may be.

C. Creation of DUMMY FRONT organizations and parties

As a rule this method has little chance—except in colonial countries where they may marshal national and colonial "liberation" movements.

XI. ORGANIZATION of the C.P.F.

A. Party Center (small, moved from city to city)

TROIKA—directing authority (Poli-Org-PropAgit)

RESPONSIBILITIES -- NATIONAL or DEPARTMENTAL

1. POLITICAL RESPONSIBILITY—overall supervision and politesse of cadres
2. RESPONSIBLE FOR CADRES—supervision and protection of cadres; ration cards, identity cards and other documents to Party Militant
